

Bay Area Oriental Family Practice, P.A.

Insurance Benefits Confirmation Waiver

Knowing your Insurance Benefits is the patient's responsibility at the time of your first appointment. We cannot honor a benefit that we are not aware of at the time of your appointment and we are often given incorrect information by the Insurance Companies. Information such as deductibles, in network or out of network and alternative medicine programs are important for you as the patient to be aware of and you should confirm all this with your Insurance Company before your first appointment if you want us to honor any benefit. We are happy to honor any benefit that your Insurance Company is including in your policy so please make us aware that there are benefits and we will call to confirm.

We are sorry but we cannot give you a credit on previous treatments if you find out you have benefits later on.

We are happy to help you confirm your insurance benefits and we must confirm any benefits that we are billing for such as Auto Insurance etc., however, it is not our responsibility to tell you what your Insurance benefits are.

Thank you for helping us with this so there are no misunderstandings to interfere with your healing process.

I understand and agree:

Patient: _____

Date: _____
