

Good News for our Veterans and families

Dear Patients,

We have good news for our Veterans and their families!

Our clinic is in network with the Health Net Federal Services choice program. This program currently works with the VA hospital to assist our nation's veterans with alternative care in the Tampa Bay community. It has been our pleasure to treat our nation's veterans. We would like to continue to help more veterans overcome health issues they may be experiencing.

In the past two years, we have achieved excellent results and we have received a multitude of compliments for helping our veterans. We treat health issues such as chronic pain, headache, PTSD, back pain, Gastroparesis and many others.

Our veterans have made multiple sacrifices in serving our country. Many are suffering in pain daily and face other health problems as a result of their service. They deserve the best help from caring doctors.

If you have any veterans in your family, know of friends, or even neighbors, who are suffering from various conditions, please give them our business cards and tell them to ask VA doctors for referrals to our office. We will give them the best treatment and help.

As you know, acupuncture is not only good for treating pain but also good for helping many health problems. Acupuncture aids in maintaining your overall health by improving your immunity. If you know anybody who has some health issues, and you are not sure if it can be helped by acupuncture, please call our office. Also, we have many other remedies such as Tuina massage, cupping, herbs and supplements to help our patients alternatively to acupuncture.

Thank you very much!

An Ounce of prevention is worth a pound of care!
